PRICE PROPERTY

RECORDED 12/20/00

This 88 acre property with 2500 feet of frontage on Towne Pond, approached by an open meadow and abutting the 885 acre Boxford State Forest provides an extensive wildlife corridor and is an area of mixed hardwoods and evergreens indigenous to this area of New England, as well as extensive native ground covers, such as princess pine, is also prime habitat for a variety of birds and mammals, as well as reptiles and amphibians. It is in keeping with the open space plans of the Town of Boxford.

INSPECTION REPORT

1. Property name: PRICE PROPERTY

2. Location (street address): TOWN ROAD, BOXFORD, MA 01921

May 24, 2008

3. Date of inspection: June 11, 2008

Mr. Davis Santomenna

Essex County Greenbelt Association

Essex, MA

Dear David,

I am writing to reconfirm our discussion of the other day, that we will be visiting the Price Property, which you own, in order to establish "current conditions" and to do our annual monitoring. We will be doing this the first 2 weeks in June.

Sincerely Yours,

Natasha Grigg

Natasha Grigg, president

confirmed by telephone

12. Describe the details of your inspection (where you walked, etc.):

ENTERED FROM THE ROSEHART ON PRICE FIELD. GOT ON POND TRAIL - 250 FT BY THE POND AS WELL AS THE 12000 POND WAS VIEWED. WALKED MOST OF THE TRAIL.

**BTA/BOLT Inc. CONSERVATION RESTRICTION
INSPECTION REPORT**

1. Property name: PRICE PROPERTY
2. Location [street address]: TOWNE ROAD, BOXFORD, MA 01921
3. Date of inspection: June 11, 2008
4. Size in acres: 88, including TOWNE POND
5. Date conservation restriction recorded [month/year]: 12/30/02
6. Grantor name: ESSEX COUNTY Greenbelt Assoc.
7. Grantor address: 82 EASTERN AVE, ESSEX, MA 01929
8. Owner name [if different from grantor]: same
9. Owner address: same
10. Length of present ownership [years, months]: 6 yrs, 10 months
11. Did the owner of the property accompany you on the inspection? no

Identify how notice of visit was given or permission obtained. By letter & phone

Enclose letter, if sent ☒

12. Describe the details of your inspection [where you walked, etc.]:

ENTERED thru the easement on Price Field. Got on POND TRAIL - 2500 ft of trail on pond as well as the 13 acre pond was viewed. Walked most of the trail.

13. Present use of restricted property: walking, cross country skiing.
Skating on Pond

14. Note any possible violations of the terms of the conservation restriction [be as specific as possible]: NONE

Monitor comments/Intended Follow-up

15. Present use of abutting properties [including the owner's unrestricted lands]:

Residential; meadow abuts owners house
and bears a 15 ft. easement.
Property also abuts BOXFORD STATE FOREST

16. Describe any rare or unusual plant or animal life or sign thereof:

much habitat for animals; nothing rare

17. Additional remarks [particularly as to the present condition of the property]:

A most beautiful location. In excellent
condition

18. Names of monitoring team members:

NATASHA GRIGG

NICK SKEWESBURY, Photographer

19. Time spent on property: 1 1/2 hours

20. Inspection team leader:

NATASHA GRIGG

**BTA/BOLT Inc. CONSERVATION RESTRICTION
INSPECTION REPORT**

1. Property name:

Price Property

2. Location [street address]:

Towne Road, Boxford, MA

3. Date of inspection: 6/21/07

4. Size in acres: 88

5. Date conservation restriction recorded [month/year]: 12/30/02

6. Grantor name: *Essex County Greenbelt Assocation*

7. Grantor address: 82 Eastern Avenue, Essex, MA 01929

Phone: (978)768-7241

8. Owner name [if different from grantor]: *same*

9. Owner address: *same*

10. Length of present ownership [years, months]: *5 years; 10 months*

11. Did the owner of the property accompany you on the inspection?

Identify how notice of visit was given or permission obtained.

Enclose letter, if sent

*No, owner did not accompany. No notice given – owner is a
Fellow Land Trust*

12. Describe the details of your inspection [where you walked, etc.]:

Entered through Dick and Jean Price's field, and took a path in the woods that followed the banks of Towne Pond. There is a beaver deceiver in this pond, which is visible from the path. The CR includes 2500 ft. of frontage of the pond, as well as 13 acres of the pond. While some of the area around the pond is not accessible (without serious bush-wacking), you get a clear vantage of the pond from the path area.

November 20, 2001

Neil S. Olansky
Chair, Boxford Board of Selectmen
200 Washington Street
Boxford, MA 01921

Re: Price CR, Towne Farm Road

Dear Chairman Olansky:

Enclosed please find a review copy of a Conservation Restriction covering some 75 acres of land currently owned by Richard and Jean Price off Towne Farm Road. Efforts to permanently protect this property have been underway for some time, and this Conservation Restriction represents the final phase of this very significant land protection project.

As currently conceived, the project structure calls for the donation of the property in fee to the Essex County Greenbelt Association. We in turn will grant a Conservation Restriction to BTA/BOLT, in order to maximize the protection of the property. This structure is very similar to that employed across town in connection with the pending acquisition of the Perkins property. Both Greenbelt and BTA/BOLT are very pleased with this outcome, and we would hereby request that the Board approve the enclosed Conservation Restriction. The restriction has been reviewed and approved by the state Division of Conservation Services, and will be executed by both Grantor and Grantee prior to the Selectmen's meeting on November 26th.

Thank you for your consideration, and please feel free to call with any questions.

Sincerely yours,

David T. Santomenna
Project Manager

Enc.

Essex Greenbelt Association
MUNICIPAL CERTIFICATION
Town of Boxford

We, the undersigned Conservation Commission of the Town of Boxford hereby certify that the proposed Conservation Restriction is in the public interest in that:

- The Premises is adjacent to Boxford State Forest and to land owned by the Essex County Greenbelt Association, thereby enhancing the ecological viability of the area and contributing to a corridor of protected open space; and
- Trails on the Premises may be used by the general public for passive recreational and educational activities; and
- The Premises includes approximately 2500 feet of frontage on Towne Pond, a significant water resource in the Towns of Boxford and North Andover; and
- The Premises contains and consists of pond edge, a freshwater stream, freshwater wetlands and forested upland, representing a diversity of wildlife habitat; and
- The protection and preservation of rural character, the protection of water resources and the provision of adequate passive recreation are identified as goals of the Open Space and Recreation Plan of the Town of Boxford; and
- Said Open Space and Recreation Plan identifies Conservation Restrictions as one of the techniques to help implement Boxford's open space goals; and
- Conservation of the Premises is consistent with the 1996 Master Plan of the Town of Boxford; and
- Open space protection is also consistent with the goals of North Andover's Open Space and Recreation Plan;

Mr. and Mrs. Richard H. Price
Towne Road
Boxford, MA 01921

Dear Mr. and Mrs. Price:

Enclosed for your review is a first draft of a conservation restriction
for your property in Boxford.

Greenbelt and BTA/BOLT are very grateful for the opportunity to work
with you on a conservation plan for your magnificent land. We look
forward to your comments on the draft conservation restriction.

Sincerely,

Edward O. Becker
Executive Director

RE: MA DEP File #114-703 Perley Lane Extension

Dear Commission:

It is our understanding that a small, second order stream which flows between the outlet of Towne Pond and Fish Brook is located within the Perley Lane Extension development project. Regardless of whether the stream is determined to be perennial or intermittent, we urge the Commission to require as large a no-cut riparian buffer as possible (e.g. a 100-foot no-cut zone within a 200-foot restricted corridor, or a 100-foot no-cut zone from the edge of the bordering vegetated wetland) in order to minimize the downstream impacts of this construction project.

This unnamed stream is not an isolated waterbody - it's got important connections! This stream is a tributary to Fish Brook, which, in turn, is a major tributary of the Ipswich River, a valuable regional resource. We are especially about this unnamed tributary to Fish Brook because Fish Brook supports a cold-water fishery (brook trout). (Kerry Mackin, IRWA, personal communication 8/2/99.) The quantity and quality of tributary water flowing into Fish Brook is vital to the protection and maintenance of Brook's physical habitat and aquatic life.

Significant alteration in land use in the Perley Lane Extension development project could result in severe impacts downstream, including but not limited to the following impacts on water quantity, quality, and habitat:

Water quantity:

- Increased impervious surfaces from roofed and road areas;
- Increased stormwater runoff;
- Increased hydraulic loading to the stream;
- Increased flooding problems.

Water quality:

- Increased sediment loading to the stream;
- Increased turbidity:
Cloudy water creates a disadvantage to site-feeding predators such as trout, and can clog the gills.
- Increased nutrients:
Increases in phosphorus can increase algal growth and decrease dissolved oxygen in the water; cold water fisheries require higher levels of dissolved oxygen than warm-water fisheries.
- Increased water temperature:
Not good for cold water fisheries!

Habitat:

- Changes in stream morphology;
- Smothering of benthic organisms;
- Changes in structure and function of aquatic life.

One effective way to maintain both water quantity and quality in the stream is to maintain a vegetated riparian buffer, the wider, the better, especially for small higher order streams. (Higher order streams are much more vulnerable to development than main stem rivers, since higher order streams are directly exposed to much more land area, and have much less available dilution.) The vegetated riparian buffer acts as a filter for sediment and other pollutants, and as a sponge to dampen shock loadings of water volume during storms.

We urge the Commission to consider the following actions to protect and maintain downstream water quantity, quality, and habitat:

1. Create as wide a riparian buffer as possible for the stream.
2. Prohibit clearing of vegetation within the buffer. We need to maintain the shading which keeps the water temperatures cool enough to support a cold water fishery.
3. Prevent erosion of sediment into the stream and its riparian buffer. Require implementation of effective sediment erosion control and best management practices during construction, to keep silt on site, as close to the work area as possible.

We thank you for your acknowledgment of the broader ecological significance of this tributary to Fish Brook, and ultimately, the Ipswich River. We thank you for your consideration of our suggested actions necessary to protect and maintain our valuable natural resources. This letter of concern is written on behalf of both the Ipswich River Watershed Association (IRWA), 218 Boston St., Suite 204, Topsfield, MA 01983, and the Friends of Fish Brook in Boxford, MA.

Sincerely,

Jennie E. Bridge

BTABOLT Inc. CONSERVATION RESTRICTION
INSPECTION REPORT

1. Property name:
Price Property

EXHIBIT A

2. Location (street address):
Touche Road, Boxford & North Andover, MA

The land subject to this Conservation Restriction (the "Premises") consists of the property shown as Area B on a plan entitled "Plan of Land in Boxford & North Andover, MA", Owner: Price Realty Trust, by Hayes Engineering, dated November 28, 2001, and recorded in the Essex South District Registry of Deeds in Plan Book 356, Plan 5.

3. Date conservation restriction recorded (month/year): 12/2002

4. Grantor name (city, county, Greenbelt Association):

Grantor address (city, county, state, zip code):
Price Realty Trust

5. Grantor (if different from grantor) name:

6. Grantor (if different from grantor) name:

10. Length of present ownership (years, months): 3 years, 6 months

11. Did the grantor of the property accompany you on the inspection?

Identify how notice of inspection was given or permission obtained.

Decline (yes if yes)

No notice and not accompanied. No notice given. Decline as a
Price Realty Trust

12. Describe the details of your inspection (where you walked, etc.):

Entered through Dick and Jean Price's field, and took a path to the woods, then followed
the back of Louisa Pond. There is a beaver dam in this pond, which crosses from
the path. The CR includes 200 sq. ft. of coverage of the pond, as well as 13 acres of the
pond. While some of the area around the pond is not accessible without various
measures, we got a clear view of the pond from the path area.
