Subject: exhibit

Hi -

The first paragraph needs to define the "premises" - that means the land subject to the CR.
so - Exhibit A is a legal description or a plan of land (some people do both - so there's 2 exhibits) of the "premises" - the land subject to the CR.

This CR needs to state something like:

in perpetuity and exclusively for conservation purposes, the following Conservation Restriction on a parcel of land located in the Town of Boxford, Massachusetts constituting approximately XXX acres("Premises"), and more particularly described in Exhibit A and attached plan/sketch plan.

Jennifer Jillson Soper, Regional Planner
Executive Office of Energy & Environmental Affairs
Division of Conservation Services

October 25, 2007

**Jennifer Jillson Sopher, Regional Planner
Division of Conservation Services**

**Dear Jennifer,
Enclosed please find CR # 32 (BTA/BOLT to Town of Boxford Conservation
Commission – Townsend farms).**

**We have made the changes you suggested and gotten the required signatures. The
property involved is described on page 1 of the CR so we have not included an Exhibit A.**

We hope this meets the requirements and thank you for all your help.

Sincerely,

Judy Gore, Vice president

Acknowledgement of Baseline Documentation

The undersigned, being the grantor/successor under a conservation restriction granted to Essex County Greenbelt Association ("ECGA") with respect to land located at off Washington Street, Boxford ("the property"), hereby certifies to ECGA that the accompanying baseline documentation which includes the "relevant documents" listed below, is an accurate representation of the Property and its condition on the date hereof. The undersigned agrees that the conditions documented in said baseline documentation do not necessarily represent the conditions of the Property allowed or required by the conservation restriction, and that ECGA in no way waives any rights, either at or in equity, to enforce the provisions of the conservation restriction.

CONSERVATION RESTRICTION

The undersigned, BTA/BOLT, formally known as the Boxford Trails Association, Inc., a Massachusetts charitable corporation with an address of 20 Cross Road, Boxford, Essex County, Massachusetts hereby grants to ESSEX COUNTY GREENBELT ASSOCIATION, INC., a Massachusetts charitable corporation having its principal office at 82 Eastern Avenue, Essex, Essex County, Massachusetts, its successors and permitted assigns, in perpetuity and exclusively for conservation purposes, a Conservation Restriction on the land located in Boxford, Essex County, Massachusetts described in Exhibit A attached hereto and incorporated herein by reference (the "Premises"). Said BTA/BOLT and its successors in title to the Premises are hereinafter called the "Grantor" and ESSEX COUNTY GREENBELT ASSOCIATION, INC. and its successors and permitted assigns are hereinafter called the "Grantee".

Whereas, the Premises provides significant scenic, aesthetic, scientific and education value in its present state as a natural area and open space which has not been subjected to development incompatible with said uses; and

Whereas, the Grantor and Grantee recognize the uniqueness of the Premises as a distinctive Massachusetts landscape embodying the special character of the region in which the Premises is located and have the common purpose of conserving the natural and scenic values of the Premises for this generation and future generations; and

Whereas, the Premises contains and consists of freshwater wetlands, forested upland and vernal pools representing a diversity of wildlife habitat; and

Whereas, the Grantor intends to promote outdoor recreational and educational use of the Premises by the public; and

Whereas, the Premises comprises part of a highly scenic landscape visible to members of the general public from State Highway Route 133 and from the Premises itself; and

Whereas, protecting and preserving rural character, protecting water resources and providing adequate active and passive recreation are identified as goals of the 1994 Open Space and Recreation Plan of the Town of Boxford; and

Whereas, said Plan identifies conservation restrictions as one of the techniques to help implement the Town's open space goals.

Therefore, in order to preserve the Premises in perpetuity in its present natural scenic and open condition, the Grantor conveys to the Grantee a perpetual Conservation Restriction within the meaning of Chapter 184, Section 31 et. seq. of the General Laws of Massachusetts, as amended. The terms of this Conservation Restriction are as follows:

1. **Prohibited Activities.** Except as otherwise herein provided, the Grantor shall neither perform nor permit others to perform any of the following acts or uses on, over or under the Premises:

- (a) Construction or placing of any building, tennis court, landing strip, mobile home, swimming pool, septic system, road, sign, fence, billboard or other advertising display, utilities, conduits, poles, antennas, windmills, solar panels or other temporary or permanent structures or facilities on or above the ground;
- (b) Dumping or placing of soil or other substances on the ground as landfill, or dumping or placing of vehicle bodies or parts, junk, trash, refuse, solid or chemical waste or unsightly or offensive materials, or the installation of underground storage tanks;
- (c) Cutting, removal or destruction of trees, forbs, grasses, shrubs or other vegetation;

- (d) Mining, excavating, dredging or removal of loam, peat, sand, gravel, soil rock or other mineral substances or natural deposits except as necessary for proper drainage or soil conservation and then only in a manner which does not impair the purposes of this Conservation Restriction;
- (e) Any residential, commercial or industrial use or any institutional use inconsistent with the purposes of this Conservation Restriction;
- (f) Use of motorized vehicles of any nature or kind, including but not limited to cars, trucks, motorcycles, all-terrain vehicles and snowmobiles, except such as may be reasonably required by police, firemen or other governmental agents in carrying out their lawful duties or as reasonably necessary in conducting any of the activities permitted by this Conservation Restriction;
- (g) Activities detrimental to drainage, flood control, water or soil conservation, water quality, or erosion control; and
- (h) Any other use of the Premises or activity thereon which would materially impair significant conservation interests unless such use or activity is necessary for the protection of the conservation values that are the subject of this Conservation Restriction.

2. Reserved Rights. All acts and uses not prohibited in paragraph 1 are permissible. Notwithstanding anything contained in paragraph 1, the Grantor also reserves the right to conduct or permit the following activities on the Premises, but only if such activities do not impair significant conservation interests:

- (a) Hiking, horseback riding, bicycling, cross-country skiing and other passive outdoor recreational and educational activities;
- (b) Any activities designed to enhance the ecological or natural historical value of the Premises or to enhance the awareness of such values, including but not limited to the creation of footpaths, boardwalks and the placing of

informative signs and benches; the clearing of trails and other maintenance necessary therewith; and wildlife habitat improvement;

- (c) Within forested areas, in accordance with generally accepted forest management practices, (i) selective pruning and cutting to prevent, control, or remove hazards, disease or insect damage, or fire; and (ii) the cutting of trees for any purpose, including without limitation commercial timber production, in accordance with a plan, prepared by a professional forester and approved by the Grantee, that is designed to protect the conservation values of the Premises;
- (d) Such other activities requested by the Grantor and expressly approved by the Grantee as are consistent with the purposes of this Conservation Restriction.

The exercise of any right reserved by the Grantor under this paragraph 2 shall be in compliance with the then-current Zoning By-Law applicable to the Premises, the Wetlands Protection Act (General Laws Chapter 131, Section 40) and all other applicable federal, state and local law. The inclusion of any reserved right in this paragraph 2 requiring a permit from a public agency does not imply that the Grantee takes any position on whether such permit should be issued.

3. Access by the Grantee. The Grantee through its duly designated officers, directors, employees, representatives or agents shall have the right to enter the Premises, following reasonable notice and at reasonable times and in a reasonable manner, for the purpose of inspecting the Premises and determining compliance with the terms of this Conservation Restriction, and with order of court, for the purpose of preventing, abating or remedying any violations thereof. With the mutual consent of the Grantor, the Grantee may, at its sole expense, perform any act required to preserve, conserve or promote the natural habitat of wildlife or plants located on the Premises. The Grantee shall have the right to erect and from time to time replace, at appropriate locations near the boundaries of the Premises, suitable signs identifying the Grantee as the holder of this Conservation

Restriction. Except as aforesaid no rights to enter the Premises are granted hereby to the Grantee, to the public or to any other person.

4. Access by the General Public. Notwithstanding the above, the Grantor and Grantee agree that the general public may pass and repass over the Premises for the purposes of quiet passive outdoor recreational and educational activities. Use of the Premises by the general public shall be subject to whatever schedule, rules and regulations the Grantor, in its sole judgement, shall determine are appropriate to protect public safety and the natural and scenic values of the property.

5. Legal Remedies of the Grantee. The rights hereby granted shall include the right to take any and all actions with respect to the Premises as may be necessary or appropriate, with or without order of court, to remedy, abate or otherwise enforce any violations hereof, as well as the right to enforce this Conservation Restriction by appropriate legal proceedings and to obtain injunctive and other equitable relief against any violations, including without limitation relief requiring restoration of the Premises to its condition at the time of this grant (it being agreed that the Grantee may have no adequate remedy at law), and shall be in addition to, and not in limitation of, any other rights and remedies available to the Grantee. The Grantor covenants and agrees to reimburse the Grantee for all reasonable costs and expenses (including without limitation reasonable counsel fees) incurred in enforcing this Conservation Restriction or in taking reasonable measures to remedy or abate any violation thereof, provided that a violation of this Conservation Restriction is acknowledged by the Grantor or determined by a court of competent jurisdiction to have occurred. By its acceptance, the Grantee does not undertake any liability or obligation relating to the condition of the Premises. Enforcement of the terms of this Conservation Restriction shall be at the discretion of the Grantee, and any forbearance by the Grantee to exercise its rights under this Conservation Restriction shall not be deemed or construed to be a waiver. If any provision of this Conservation Restriction shall to any extent be held invalid, the remainder shall not be affected.

6. Assignment by the Grantee. The benefits of this Conservation Restriction shall be deemed to be in gross and the Grantee shall have the right to assign its right, title and interest hereunder to a "Qualified Organization" as defined in Section 170 (h) (3) of the Internal Revenue Code provided that such assignee shall also be an eligible donee of a

conservation restriction as set forth in Chapter 184, Section 32 of the General Laws of Massachusetts, and provided further that, as a condition of such assignment, the assignee is required to hold this Conservation Restriction and enforce its terms for conservation purposes.

7. Subsequent Transfers. The Grantor agrees to incorporate the terms of this Conservation Restriction, by reference, in any deed or other legal instrument by which it divests itself of any interest in all or a portion of the Premises, including without limitation, a leasehold interest.

8. Representations of the Grantee. The Grantee represents that it is a not for profit corporation, that it has a perpetual existence, that it is organized and operated for the purpose of preserving and conserving natural resources, natural habitats, environmentally sensitive areas and for other charitable, scientific and educational purposes, that it has both the necessary funds and commitment to hold this Conservation Restriction exclusively for conservation purposes in perpetuity and to enforce its terms, and that it is a "Qualified Organization" as that term is defined in Section 170 (h) (3) of the Internal Revenue Code of 1986, as amended.

9. Required Notifications of Transfers. The Grantor shall notify the Grantee in writing at least thirty (30) days before conveying the Premises, or any part thereof or interest therein (including a lease). The Grantee shall notify the Grantor in writing at least thirty (30) days before it assigns this Conservation Restriction.

10. Notice and Approval With Respect to the Grantor's Activities. Whenever notice to or approval by the Grantee is required under the provisions of paragraphs 1 or 2, the Grantor shall notify the Grantee in writing not less than thirty (30) days prior to the date the Grantor intends to undertake the activity in question. The notice shall describe the nature, scope, design, location, timetable and any other material aspect of the proposed activity in sufficient detail to permit the Grantee to make an informed judgment as to its consistency with the purposes of this Conservation Restriction. Where the Grantee's approval is required, the Grantee shall grant or withhold its approval in writing within thirty (30) days of receipt of the Grantor's written request therefor. Failure of the Grantee to respond in writing within such 30 days shall be deemed to constitute approval by the

Grantee of the request as submitted, so long as the request sets forth the provisions of this section relating to deemed approval after the passage of time.

11. Proceeds from Extinguishment: Eminent Domain. The Grantor, for itself and its successors and assigns, and the Grantee agree that the donation of this Conservation Restriction gives rise for purposes of this paragraph to a property right, immediately vested in the Grantee with a fair market value at that time that is equal to twenty (20) percent of the value of the Premises, as if unrestricted, at that time. If any changes in conditions ever give rise to extinguishment or other release of the Conservation Restriction, in whole or in part, under applicable law, then the Grantee, on a subsequent sale, exchange or involuntary conversion of the Premises, shall be entitled to 20 % of the proceeds, subject, however, to any applicable law which expressly provides for a different disposition of proceeds. Whenever all or any part of the Premises or any interest therein is taken by public authority, then the Grantor, its successors and assigns, and the Grantee shall cooperate in recovering the full value of all direct and consequential damages resulting from such action. All related expenses incurred by the Grantor, its successors and assigns, and the Grantee shall first be paid out of any recovered proceeds, and the remaining proceeds shall be distributed between the Grantor, its successors and assigns, and the Grantee as follows: eighty percent (80%) to the Grantor, its successors and assigns, and twenty percent (20%) to the Grantee, which percentages represent the full and fair market values of the respective interests of the Grantor, its successors and assigns, and the Grantee in the Premises which are the subject of this Conservation Restriction immediately after the execution and delivery hereof. Both the Grantor, its successors and assigns, and the Grantee shall use their shares of any such proceeds in a manner consistent with the conservation purposes set forth herein.

12. Binding Effect: Interpretation. The burdens of this Conservation Restriction shall be deemed to run with the Premises and shall be enforceable in perpetuity against the Grantor by the Grantee. This Conservation Restriction shall be in addition to and not in lieu of any other restrictions or easements of record affecting the Premises. The Grantee is authorized to record or file any notices or instruments appropriate to assuring the perpetual enforceability of this Conservation Restriction; and the Grantor on behalf of itself and its successors and assigns appoints the Grantee its attorney-in-fact to execute, acknowledge and deliver any such instruments on their behalf. Without limiting the foregoing, the Grantor agrees to execute any such instrument upon request.

13. Effective Date. The Grantor and the Grantee intend that the restrictions arising hereunder take effect when all requisite signatures pursuant to Section 32 of Chapter 184 of the General Laws of Massachusetts have been obtained and this Conservation Restriction is recorded with the Essex South District Registry of Deeds.

14. Acts Beyond Grantor's Control. Nothing contained in this Conservation Restriction shall be construed to entitle the Grantee to bring any action against the Grantor for any injury to or change in the Premises resulting from causes beyond the Grantor's control, including, but not limited to, fire, flood, storm, and earth movement, or from any prudent action taken by the Grantor under emergency conditions to prevent, abate, or mitigate significant injury to the Premises resulting from such causes.

15. Termination of Rights and Obligations. Notwithstanding anything to the contrary contained herein, the rights and obligations under this Conservation Restriction of any party holding any interest in the Premises terminate upon transfer of that party's interest, except that liability for acts or omissions occurring prior to transfer, and liability for the transfer itself if the transfer is in violation of this Conservation Restriction, shall survive the transfer.

16. Estoppel Certificates. Upon request by the Grantor, the Grantee shall within thirty (30) days execute and deliver to the Grantor any document requested, including an estoppel certificate, which certifies the Grantors' compliance with any obligation of the Grantor contained in this Conservation Restriction, and which otherwise evidences the status of this Conservation Restriction.

(No documentary stamps are required as this Conservation Restriction is a gift.)

IN WITNESS WHEREOF, the said BTA/BOLT has hereunto set its hand and seal
